4.0 INFORMATION ITEMS

4.1 President’s Report

Dr. Drumm presented his September President’s Report to the Board.

Today was the formal kick-off for our Middle States decennial review. The leadership teams met today. They did a lot of preliminary work last year and we are a ways down the track already. Dr. Drumm thanked everyone who is involved on our self-study leadership teams. The timeline is a year from this winter we would submit. This year putting all the self-study material in place and next fall writing it, polishing it and submit it in the winter. They would visit in the spring of 2021. This is the current plan, then everything changes. The whole accreditation process is moving to an eight-year timeframe and there will be annual reports required. The standards that we have to meet are being adjusted, fairly similar but different and at some point Dr. Adnau will do a presentation on the new standards. We are one of the last colleges to do a self-study based on the old standards.

4.1 President’s Report Continued

We are commencing the search for Dr. Battisti’s successor. We are remaining flexible as to whether the person might be an executive vice president or might not be depending on the level of experience the person comes in with. If someone has been a dean and moving up to vice president, it might not be appropriate to make them an executive vice president right away. If they are coming in and they’ve already been a vice president then it may be appropriate to make them an executive vice president.

Still in the process of counting enrollment. Our traditional enrollment is down 6 ½% - 7%. Concurrent enrollment we never know until early October what that will be. We don’t expect concurrent enrollment to be up significantly because we have pretty well saturated the market with the schools in our area over the last several years.

Dr. Drumm reminded the Board members that the Calice Grand Opening on October 16th. NYSERDA will be playing a key role as a major contributor to the project and also Empire State Development has a stake in our soldering lab as well as many others.

Speaker Heastie is going to speaking tomorrow at 3 p.m. on the steps of the Culinary Arts Center in downtown Binghamton as a project he’s excited to support along with Assemblywoman Lupardo.

We had a discussion at the Chamber Executive Committee of the Board of the likely eventualities of the legalization of marijuana in New York and what that means for the workplace. Also what that means for the campus. A lot would be in place regarding substance abuse in the workplace and college campus, but we’ve got to consider this and take a look at our policies to see how they might need to be updated and not wait for the law to change and then have to deal with it. I’m certain some policies and disciplinary procedures will have to be tweaked in the event that this happens.

Trustee Barber: In my research on that topic with the Student Assembly and the Civic Engagement Board, typically colleges and states that have gone green so to speak, tend not to change their policy so as to continue compliance with the Federal Drug Free Schools Act.

Dr. Drumm: We have to take a look at them and see. They would not have to be other than tweaked at this point, but we have to be sure. Particularly our human resources policies as well.

4.2 Student Development and Diversity Update – Dr. Carol Ross-Scott

Dr. Ross-Scott presented the Student Development and Diversity Update to the Board. A copy of this report was included in the Board package.

In addition to the report Dr. Ross-Scott shared:

Yesterday was the fall kick-off of the Lunch with the Law Program at Union Endicott with their high school and middle school. It was again a very successful event. This program is a good program that she hopes it continues to bridge the gap between the perceptions that young men of color and law enforcement have with one another. This time they had police officers, probation officers, a criminal justice faculty member and somebody from our team who did research with the FBI. The next meeting they will separate the middle school and high school and in the last meeting in December they will bring the high school males to campus to spend time with our Men of Excellence. Hopefully this will be a pretty good pipeline. Dr. Ross-Scott is glad that we are involved in this program.

Dr. Ross-Scott introduced Janet Hertzog who presented on Workforce Development. A copy of Ms. Hertzog’s PowerPoint was distributed to the Board members.

4.3 Student Assembly Update – Trustee Orion Barber

Trustee Barber presented the September 2018 Student Assembly Update to the Board. A copy of this report was included in the Board package.

There is a chance that after the elections Trustee Barber will not return as the student trustee. He took the opportunity to thank everyone around the table for teaching him so much about life, and business, and college. If he is elected, he looks forward to returning and fulfilling his responsibility once again for another year.

4.4 Broome Community College Foundation Report – Ms. Cathy Williams

The September 2018 BCC Foundation Report to the Board was included in the Board package.

In addition to the report Ms. Williams shared:

We received a $5000 gift from a local physician. His mother graduated from a CLT program in Rochester. She worked in an atomic energy lab and they qualified for a settlement for people who worked for the government that had exposure to radiation. He asked that his gift be used in the Clinical Laboratory Technology Program. His gift came at an opportune time because the blood analyzer machine had broken so the $5000 will cover half the cost of the new critical machine.

Ms. Williams stated that the phone-a-thon has begun and they have ten callers one of which is Trustee Barber. He has already exhibited some significant leadership and we are excited that he has joined our team. They have a great cohort of callers; we have four returning callers and six new callers.

This report is routine and for informational purposes.

4.9 Human Resource Update

These reports are routine (with planned activity) and for informational purposes. A copy of this report was included in the Board package.

4.10 Budget and Finance Update

This report is routine and for informational purposes. A copy of this report was included in the Board package.

Mr. Sullivan reported that the budget and finance offices continue to forecast a balanced budget for 2017-2018, which was completed August 31st. They will present the financial information, the annual report to SUNY by their deadline of October 31st. We anticipate the external auditors, Bonadio, to come in and would expect to have a presentation to the Board relative to the audit of financial statements early next year.

A more detailed forecast for the current year will be presented at next month’s meeting. The preliminary analysis of the current year’s budget is that appropriate steps have been taken to ensure that our spending will be in alignment with the reduction in revenues and at this point, we are forecasting a balanced budget for this year as well.

4.11 Media Report

This report is routine and for informational purposes. A copy of the media report was included in the Board package.
