

# Meet the BUS, BIT, CST, HOS, RAD tutors

---

## Jocelyn Dupuis

Hi, my name is Jocelyn Dupuis and graduated with my BIT degree, majoring in Web Development & Management. Previously, I spent 18 years in retail management working my way up the ladder to Store Manager and District Trainer. I was looking for something more—for myself and my family, so I decided to switch life up and become a full-time student in her mid-thirties.

Beyond school, I'm a mom of two teenage boys (eighteen & thirteen), I have an awesome and supportive partner, and we thoroughly enjoy our 100-pound lap dog who we rescued almost nine years ago; he's living his best life!

In my spare time I love to cook all different types of dishes, enjoy the outdoors (when the weathers nice), collect vinyl, attend as many shows and concerts as possible, and travel near and far.

I look forward to working with you and lending any additional support needed. Happy Fall semester!

---

## Janet Hernandez

I spent 34 years working in corporate finance for manufacturing companies, with a 3 year stint as an operations manager slipped into the middle. I have been a Cost Accounting Manager, Financial Analyst and Controller along with a few other roles mixed in.

A few years ago I decided I didn't want to work full time anymore and I was lucky enough to find the Broome Business Tutoring Program. I really enjoy my time with students. I have met people from all over the world and learned some new things myself. I can tutor most anything except Stats and Economics.

---

## Audrey Horton

Hi everyone! My name is Audrey and I am a Business Tutor here at SUNY Broome. I am a Business Administration major here who is in my last semester. After Broome, I plan on transferring to SUNY Polytechnic Institute in Utica to get my bachelor's, then eventually my master's in the near future. I started as a tutor last semester in the Business Tutoring Lab, and this year I am tutoring students individually. When talking about other job experiences and opportunities, I was recently a Student Ambassador and Orientation Leader for Broome this past Summer.

Outside of college, I work in the Floral department at Wegmans and I also was a marketing intern for Modern Marketing Concepts of Binghamton last semester. After I finish my degree, I plan on concentrating in either Human Resources or Marketing and Sales. The subjects I tutor are Business Statistics, Marketing, Managing Diversity in Organizations, Principles of Management, and Business Law I and II. Wishing everyone the best this semester!

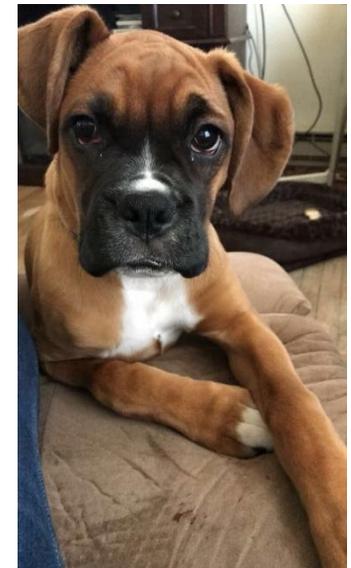

---

## Jessica Loomis

Hi everyone! My name is Jessica, I'm from Hallstead, PA which is right over the border, but I just moved into an apartment with my fiancé in Liverpool, NY. When I graduated high school in 2014, I was caught between going to school for imaging and psychology, I decided to choose psych and hated it. I'm a huge animal lover and I'm currently working for UHS as a Radiology Associate.

During my free time I love spending time with my dog, Topsy (I'll add pictures below), spending time with friends and family, hiking, going to concerts and binging some shows. Choosing this program was one of the best decisions I've ever made, the amount of personal growth and good friends I've made in this program still blows my mind.

I'm so excited to meet all of you and see and help all of you succeed. If you need help with anything, feel free to reach out, even if it's an ear to vent! Enjoy your first semester, it will fly by!

---

## Chef Michelle McIlroy

Chef Michelle McIlroy, a graduate of the prestigious Culinary Institute of America, has been an instructor in the Hospitality Programs Department at SUNY Broome since 2016. Her culinary career began during high school, when she interned at Najla's Catering. After receiving her bachelor's degree at Brown University, Michelle studied pastry at the French Culinary Institute in New York City. From there, Chef McIlroy honed her skills working at Troutbeck Inn, a luxury resort in the Berkshires, and The Hil, a nationally acclaimed farm-to-table restaurant just outside of Atlanta, Georgia. Before returning to upstate New York and launching her own catering and culinary education business, Phantom Chef LLC, Chef McIlroy was the executive chef and general manager of the Blue Eyed Daisy, an organic café and bakery in Atlanta.

Most recently, Chef McIlroy furthered her education by pursuing a Master of Science in Hospitality Management at Johnson & Wales University, graduating in the spring of 2020.

---

## Christopher Painter

My name is Chris and I'm one of the CST tutors. If you have any questions with C++, C#, C, Python, Java, Assembly, or a little bit of HTML5 then I'm here to help. I can handle any questions you have from arrays and structs to recursion and sorting trees.

Currently, I'm working on my Computer Science B.S. at Binghamton University.

My favorite things include running, gaming, the MCU and strangely enough I really enjoy tutoring as well!

I wish good luck to everyone in their studies this semester!

---

## Logan Stebbins

Hey everyone! My name is Logan, and I will be one of your tutors this year! I am from Chautauqua, New York, and moved to the area a few years ago to pursue my degree. I have a previous degree in social sciences from Jamestown Community College, and currently work as a radiology associate for UHS. I really enjoy being outdoors, whether it be fishing, hiking, snowboarding, or just hanging out with friends. I also love music, traveling, and watching football (Go Bills).

I am so excited to work with you and hope to aid in your success in this incredible program and future career!
